

# Hang-It!™ Triple Guitar Stand

GS7355 / 10721

## Features and Benefits

Keep three guitars readily available yet safe and blemish free with our GS7355 Hang-It!™ Three-Guitar Stand. This sturdy stand adjusts in height to securely hold three electric, acoustic, or bass guitars by the headstocks while the bodies rest against lower bumpers. The wide tripod base delivers reliable stability, plus the yokes and bumpers are aligned with the legs to maintain balance when holding one, two, or three guitars. Padding on the contact points protects guitar finishes from dings and scratches. For efficient storage and transportation, the base folds down.
