

Drum / Amp Mic Stand with Telescoping Boom

MS9417 / 12998

M20 THREADED

Features and Benefits

Comprised entirely of powder-coated aluminum alloy, these state-of-the-art stands provide both durability and flexibility. The sleek, embossed base features six vibration-tamping, floor-protecting pads, while the shaft incorporates an internal clutch washer for smooth, secure height adjustments from 17" - 28.5". The all-metal tele-boom features a removable counterweight for dual mic functionality.
