

Mini Pedal Tuner

GTP7000 / 13315

Features and Benefits

Compact yet overly capable, the On-Stage GTP7000 smoothly and stably integrates with your effects board, occupying minimal space. This chromatic mode tuner with 430 - 450Hz pitch range and + / - 0.5 cent tuning tolerance, and is powered by a 9V DC adapter. The over-sized, high visibility 4 color regular, strobe or half strobe display provides easily-read note name indication, while true bypass circuitry ensures absolute signal integrity.

Specifications

Application: Guitar pedal tuner

Tuning Mode: Chromatic

Display: 4-Color

Pitch Range: 430Hz - 450Hz

Detection Accuracy: ± 0.5 Cent

Power: 9V DC (power supply not included)

Dimensions: 3.6" x 1.5" x 1.3"

Color: Black
