

Guitar Stool with Hanger

On-Stage®

DT8000 / 14033

NEW PRODUCT

Features and Benefits

The built-in hanger on the back of our DT8000 Guitar Stool provides a safe, convenient place for guitarists to store their guitar between sets. An extra-thick padded seat cushion boosts comfort and reduces fatigue. Nonslip rubber feet on all four legs increase stability and ensure the stool stays in place while protecting the floor from scratches. For efficient storage and transportation, the stool folds down.
