

# 10" Mixer Bag

MXB3010 / 14498

## Features and Benefits

Our Mixer Bag provides safe transportation for a wide range of 10", 12", or 16" mixers. The tough, weather-resistant exterior defends against the elements while dense padding shields the mixer from impact damage. For efficient packing and unpacking, a two-pull zipper fully opens and closes at either end or any point between. A divided outer accessories compartment provides convenient access to supplies and tools. Padded handles and a removable adjustable shoulder strap enable comfortable lifting and carrying.
