

DA-26P

u-mount Percussion Mount w/ Spline Gear

DRUM SET KITS & ACCESSORIES

FEATURES AND BENEFITS

Based on the elliptical enveloping clamp design first found on the u-mount series, the DA-26P is a natural adaptation of that versatile system. A single oversized thumbscrew secures the mount in seconds to any round hardware tubing from 16-25mm. NO tools needed! The internal spline allows for 360° of pull-and-turn rotation in 26 locking increments. The included knurled steel rod can be used for mounting cowbells, tambourines, etc., or it can be removed to allow small boom arms to be positioned freely around the kit. Also fits handily on mic stands, music stands, and other common stage gear, making it a great accessory mount for every member of the band!

Ask about our other Drum Bags & Accessories

CB4000

Backpack Cymbal Bag

Holds up to four 22" cymbals inside the bag's primary pocket, while the smaller pocket accommodates hi-hats and cymbals up to 15".

DMA4450

Non-Slip Drum Mat

Lightweight, convenient alternative to heavy, fraying rugs. 4 x 4' Durable mat lays flat and rolls up easily with included velcro straps and nylon carry bag.

Accessible Accessories!

Have easy access to all of your drumming accessories! A single oversized thumbscrew secures the mount in seconds to any round hardware tubing from 16-25mm. NO tools needed!
