

MS9212

12" Heavy-Duty Round Base Mic Stand

MICROPHONE STANDS & ACCESSORIES

FEATURES AND BENEFITS

This full-size pro level round base stand utilizes a 10 lb., 12" low profile sand cast base to handle the heaviest mics and longest boom arms. The heavily built shafts are constructed of 7/8" and 1-1/8" seamless cold-formed tubing, terminated in standard 5/8" - 27 threading suitable for mic clips, booms, and accessories. Heavy course threading on the lower shaft makes assembly faster and extends thread-wear compared to older threaded designs. The sleek embossed base features six rubber pads to absorb vibrations and protect floors. Height adjustment ranges from 36"-65" via a heavy duty diecast mid-point clutch. Finally, precise mic positioning is easy thanks to an oversized knurled locking washer.

The PROFESSIONAL Choice

PROFESSIONAL SERIES

MS9210 10" Heavy-Duty Round Base Mic Stand
MS9212 12" Heavy-Duty Round Base Mic Stand

These top-of-the-line round base microphones stands are made from heavy-duty materials and are built to last! Both stands feature a sleek embossed base with six rubber pads on the bottom, which absorb vibrations and protect floors. An internal rubber washer in the clutch keeps the upper shaft and your mic from crashing down when making height adjustments.
