

MS9210

10" Heavy-Duty Round Base Mic Stand

MICROPHONE STANDS & ACCESSORIES

FEATURES AND BENEFITS

This pro level round base stand utilizes a 6 lb., 10" low profile sand cast base that ensures stability while maintaining a minimal footprint on stage. The shafts are constructed of 5/8" and 7/8" cold-formed tubing, terminated in standard 5/8" - 27 threading suitable for mic clips, booms, and accessories. Heavy coarse threading on the lower shaft makes assembly faster and extends thread-wear compared to older threaded designs. Height adjustment ranges from 36" -65" via a heavy duty diecast mid-point clutch. Finally, precise mic positioning is easy thanks to an oversized knurled locking washer.

PROFESSIONAL SERIES

MS9210 10" Heavy-Duty Round Base Mic Stand

MS9212 12" Heavy-Duty Round Base Mic Stand

These top-of-the-line round base microphones stands are made from heavy-duty materials and are built to last! Both stands feature a sleek embossed base with six rubber pads on the bottom, which absorb vibrations and protect floors. An internal rubber washer in the clutch keeps the upper shaft and your mic from crashing down when making height adjustments.

PRODUCT SPECIFICATIONS

- > **Height Adj.:** 36" -65"
- > **Base Diameter:** 10"
