

RS7000

Tiltback Amplifier Stand

BACK/AMP/MIXER STANDS & ACCESSORIES

FEATURES AND BENEFITS

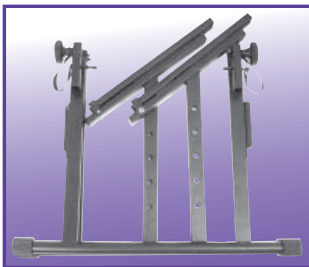

Use this stand to protect your amp by getting it off the floor. A perfect choice for various stage and studio amplifier applications, the tiltback feature will rest your gear on black velveteen rubber pads for the best grip and reinforcement of your sound. The A-frame construction makes this stand extremely secure and stable when holding equipment and gear. Non-slip rubber feet and a locking cross brace keep the stand, and your amp, firmly in place.

Padded support arms fold down for quick and easy storage.

Friction locking knob quickly and easily adjusts shelf height to five different positions.

Locking cross brace adds strength and support. The single hinge allows legs to fold quickly and easily for storage and travel.

Entire stand breaks down into 3 pieces and will lay flat for storage and travel!

**COLOR
Packaging!**

Our award-winning packaging is eye-catching and provides all of the product features.
