

LED202R

Clip-On LED Light, Red

BAND / ORCHESTRA STANDS & ACCESSORIES

FEATURES AND BENEFITS

A must have for any front of house sound technician or for use with a guitar/bass pedal board on stage! Our Clip-On LED Light features two adjustable High Intensity Red LED Lights, ideal for night vision, which allows you to light the work/performing area without affecting the stage lighting. A great tool for backstage too! The flexible gooseneck attachments allow for easy positioning at any angle. Each light has its own on/off switch, allowing for the light level to be adjusted as well. The clip can easily be attached virtually anywhere and the compact design also sits flat on a desktop! This light is powered by (3) AAA batteries (included) and the batteries last for days without the light fading.

2 Red High Intensity LED Lights, with individual ON/OFF switches.

Padded spring-loaded clip stays secure when clipped in place and base also sits flat on a desktop surface.

Extremely Versatile

A compact, inconspicuous light with enough power to illuminate an entire pedal board, small mixing board, or conductor stand without effecting the stage lighting!

COLOR Packaging!

Our award-winning packaging is eye-catching and supplies all of the product features!
