

POP BLOCKER REPLACEMENT LINERS

ASVS6R3 | 12821

6" Micro-weave nylon liner suppresses P's, B's, and breath noises and protects microphones from moisture.

FEATURES AND BENEFITS

These specially designed 6" diameter micro-weave nylon filters diffuse annoying vocal thrusts, without altering the natural sound of the voice. The surface is also unprinted for consistent filtering.

The ASVS6R3 pack of three replacement filters to be used with ASVS6GB Pop Blocker is a great way to protect against germs between mic users.

PRODUCT SPECIFICATIONS

Diameter	6"
Included	Three replacement liners
