

# DB1000

## Active Direct Box

ON-STAGE AUDIO

### FEATURES AND BENEFITS

The DB1000 Active Direct Box transforms any high-impedance source into a low-impedance (XLR) signal ready to be sent long distances to a mixing board or recording console. Its active design features isolated inputs, a 15dB pad switch, ground lift switch, low cut switch, and polarity switch. Great for acoustic guitars, bass guitars, keyboards, and more.
