

Acoustic Guitar Push Down Spring Up Stand

GS7141

On-Stage®

Features and Benefits

A small stand with big time security! The GS7141 features a unique spring mechanism that locks your guitar in place, effectively making the stand and instrument one unit. The stand and guitar can be moved around stage or studio together with one hand. Operation couldn't be easier; simply press your guitar into the spring-loaded lower yoke and lock it into place under the upper yoke. Designed for the working musician, the GS7141 accommodates most full size acoustic guitars. Patent-pending design.
