

UPPER ROCKER LUG MIC STAND W/ TRIPOD BASE MS8301 | 12572

FEATURES AND BENEFITS

The MS8301 offers a new choice in tripod stands...the Rocker-Lug! The patented Rocker-Lug allows the upper mic shaft to tilt up to 40° off of vertical, so there is no need for a boom arm in many applications. Plus, the Rocker slides down effortlessly into the clutch for straight stand applications and for compact storage/transport. The folding tripod base sports 3 rubber feet for stability and noise reduction. The MS8301 is the new standard in tripod straight and boom stands. Patented design.

MS8412 shown here

Our new Rocker-Lug eliminates the need for an added boom arm, yet keeps your setup neat and compact when space is tight on stage or packing up for storage/transport.
