

SSA45LOK

CAB-LOK Speaker Adapter

SPEAKER STANDS & ACCESSORIES

FEATURES AND BENEFITS

The SSA45 CAB-LOK Speaker Adapter provides an effective solution to eliminate speaker wobble. Simply attach the adapter to your favorite On-Stage Stands speaker stand, then mount your speaker as usual. A manually activated ring controls sliders that expand to fill the gap between the pole and the speaker's insert, reducing any degree of wobble from wind or sound vibrations. Your speaker will stand straight, giving you peace of mind and adding a professional look to your set up.

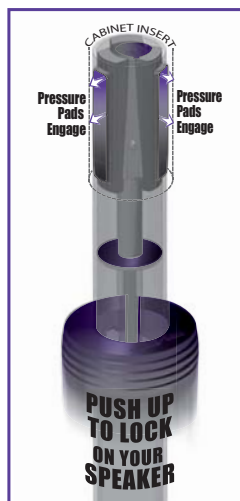

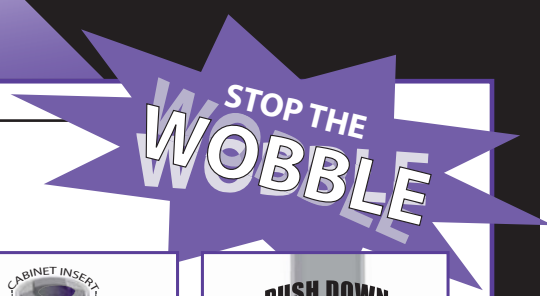

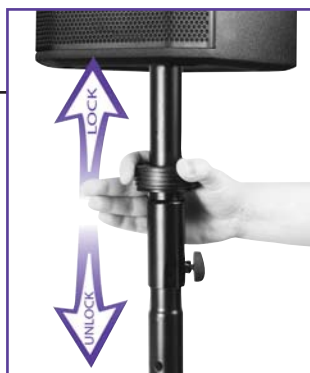

Patent-pending adapter eliminates wobble and sets your speakers straight.

Oversized thumb screw secures adapter to stand. For use with standard 1 3/8" (35 mm) cabinet inserts, speaker stands and subwoofer poles.

Easy to use ...

A manually activated ring controls sliders that expand to fill the gap between the pole and the insert, reducing any degree of wobble or tilt from wind or sound vibrations.

Can be used "upside down" in subwoofer socket for even more tilt and wobble reduction.

PRODUCT SPECIFICATIONS

- > **Construction:** Steel tubing; plastic pressure pads
- > **Weight Capacity:** Determined by speaker stand
- > **Color:** Black Powder Coat Finish

Model#: SSA45
Inv#: 10455
