

Mighty Uke Stand

GS6000B / 10087

AWARD-WINNER

Features and Benefits

We designed the Mighty Uke Stand for use with small stringed instruments, including ukuleles, mandolins, dulcimers, and violins, because full-size stands are too large for a secure hold and often weigh more than the instruments themselves. Compact, collapsible, and light, this stand slides effortlessly into backpacks and gig bags, making it a practical choice to complement your instrument's convenient portability. With padding at all contact points to protect finishes and ensure a slip-free cradle, and a light-weight rigid plastic A-frame design for proven stability, the Mighty Uke Stand is an ideal folk instrument stand.
