

Platinum Series Tele-Boom Arm

MSA9720TB / 11984

Features & Benefits

Professional telescoping boom adjusts from 19"-30". The all-steel construction combined with a locking washer will secure any boom in place. Independent adjustments for length and angle, with a maximum rotation angle of 320 degrees allows for full extensions and max flexibility when miking your vocals. Steel counterweight helps add balance while standard.625"-27 threads and neoprene stamped rubber discs allow for maximum grip.
