

Baritone Sax Stand

SXS7501B / 12578

Features and Benefits

The adjustable upper yoke support on this stand securely holds one large baritone saxophone in place. The lower cross yoke can be adjusted for two positions to ensure that your instrument is cradled and balanced securely. The tension locking knob allows for height adjustments for sitting or standing positions. The tripod folding leg base and removable yoke assembly make this stand ideal for storage and travel. The soft black velveteen rubber will not damage the finish of your saxophone.
