

# Professional Flip-It!® A-Frame Guitar Stand

GS7465 / 12912

## Features and Benefits

One of the safest guitar stands on the market, the Professional Flip-It!® A-Frame Guitar Stand combines the convenience of a one-piece A-frame base with two protective features. The upward-angled lower yoke prevents forward movement of the guitar. The upper Flip-It!® yoke operates ergonomically with one hand, flipping down when a guitar is placed in the stand and automatically springing back up to lock the neck in place, preventing tips and falls. EVA foam padding at the contact points protects guitar finishes. The stand folds down, enabling compact storage and transportation.
