

Six Guitar Stand

GS7652B / 12975

Features and Benefits

Our Six Guitar Stand conserves valuable showroom or studio floor space by holding six guitars on just one stand. This sturdy stand adjusts in height to securely hold most standard guitars and basses by their headstocks while the bodies rest against the lower bumpers. EVA rubber padding on the contact points protects guitar finishes from dings and scratches. The stable tripod base and bumpers all fold down for compact transportation and storage.

Specifications
