

Studio Boom

On-Stage®

SMS7630B / 12980

ON-STAGE ORIGINAL / M20 THREADED

Features and Benefits

This heavy-duty studio stand features a telescoping boom and is steady enough to securely hold a large condenser mic with a cage. A heavy-duty mid-point clutch is designed to act as a brake on the upper shaft, so even when loosened, it prevents the shaft from dropping down too quickly while adjusting height. The 16 lb. base brings superior stability to this stand while the unique hex shape means more room for feet placement.

Specifications

Height: 42"-72"
Base Spread: 15"
Base Weight: 16 lbs.
Boom Length: 32.5"-47"
Threading: .625"-27"
Base Threading: M20
