

Percussion L Rod

PRL1020 / 14463

Features and Benefits

Our PRL1020 Percussion L Rod is a sturdy stem that's properly sized and textured for securing percussion instruments to mounting brackets or percussion racks. The rod's L shape enables precise placement of percussion gear at various distances from the player or other gear. Four sections of knurled surface prevent slipping to increase the stability of mounted equipment. Steel construction delivers strength for dependable instrument support while chrome plating prevents corrosion.

Specifications
