

Drum Practice Pad

DPF2800 / 14909

Features and Benefits

Practice drumming without disturbing your neighbors, family, or bandmates with the DPF2800 8" Practice Pad. While the playing surface delivers realistic bounce and feel, the pad is nearly silent compared to an acoustic drum. The bottom is lined with nonslip EVA to keep the pad in place when used on a table or lap. For use with a stand, the bottom also has a built-in M6-threaded socket. Durably constructed, this pad can withstand hard hits so there's no need to compromise on your playing style.

Specifications

Application: Quiet drum practice
Playing-Surface Diameter: 7.38"
Construction: Rubber/wood/EVA
Mounting-Socket Threading: M6
Total Diameter: 8"
