

Table / Stand Microphone Clamp

TM01 / 52962

Features and Benefits

The clever design of the TM01 allows it to be mounted horizontally or vertically, on round or flat surfaces. The C-clamp mounting bracket quickly and securely attaches to microphone stands, cymbal stands, boom arms, and tables. Fits industry standard .625" - 27 thread mic clips. The removable mic clip adapter can be placed in 3 hole locations. Removable mounting block features a flat side to clamp to flat surfaces and a v-groove side to clamp to mic stands. Durable metal construction, yet lightweight for easy handling.
