

# Hex-Base Quarter-Turn Threadless Mic Stand

MS7625B / 10697

ON-STAGE ORIGINAL

## Features and Benefits

This revolutionary threadless stand brings an end to the seemingly eternal chore of screwing your microphone stand into your base. In one swift motion, just push down and turn the shaft one-quarter clockwise to lock, or push down and turn one-quarter counter-clockwise to remove. The uniquely shaped 6 lb base on this patented item means more room for foot placement. The low profile design makes for an especially stable stand.

## Specifications
