## 4 x 4' Non-Slip Drum Mat

DRUM SET KITS & ACCESSORIES

### FEATURES AND BENEFITS

Keep your bass drum from 'creeping' across the floor. The DMA4450 is a lightweight and convenient alternative to heavy, fraying rugs commonly used by drummers to keep their drumsets from moving while playing. Made from durable, non-slip PVC material; 4' x 4' provides ample room for your bass drum and a few drum stands. Perfect for the musician on the go, the DMA4450 unrolls in seconds and remains flat; it won't curl up at the edges.

4' x 4' Mat lays flat and will not curl at edges.

Two velcro straps secures mat when rolled up for storage and travel (one shown).

Available in two sizes ...

**INSIDER'S TIP:** If you've ever been in a band with a drummer, you know they all have that ugly carpet to stop the kick and hardware from sliding around. Tell your percussionist to ditch Grandma's old smelly rug and get a yoga style foam mat by OSS. They roll up quick and come in a convenient carry bag.
