

Guitar / Keyboard Pedal Board with Gig Bag

GPB4000 / 12814

ON-STAGE ORIGINAL AWARD-WINNER

Features and Benefits

Our versatile Guitar / Keyboard Pedal Board organizes roughly 20 effect pedals on a single unit that excels in a variety of guitar and keyboard rigs. It not only angles toward a guitarist when set up on the floor, but also fits over On-Stage X-style keyboard stands including 2nd and 3rd tiers. The light-weight yet sturdy board features a slotted surface for easy cable management, and non-slip rubber corners for stability. It includes adhesive velcro to cover the surface and your pedals for mounting purposes. It even comes with a heavy-duty padded gig bag, with an accessories pocket and a carry handle, to transport and protect your gear.
