

# ISOLATION SHIELD

## ASMS4730 | 12815

Vented aluminum surrounds panel with a metal frame.

2" Acoustic foam blocks out unwanted background noise.

Microphone can be mounted and positioned up to 5.5" above the bracket level.

Bracket also features an independent horizontal slide allowing you to position your mic as close as 2" from the screen, and as far as 7" away from the screen.

## FEATURES AND BENEFITS

Turn your microphone stand setup into a recording environment! The ASMS4730 Isolation Shield is a lightweight and portable shield that mounts onto most standard microphone stands, creating a mini recording studio. Constructed from a vented aluminum surround panel, metal frame and 2" acoustic foam, the ASMS4730 blocks out unwanted background noise and improves the direct sound output when recording. Included mounting brackets attach the shield easily to most standard mic stands, and an included microphone mounting bar can position your mic as close as 2" from the screen, and as far as 7" away from the screen. Entire screen adjusts vertically up to 5-1/2".

Lightweight and portable Isolation Shield turns your microphone stand into a recording studio!
