

Deluxe Cymbal Bag

CB4000 / 14045

NEW PRODUCT

Features and Benefits

The only time your cymbals should crash is when you're playing them. Our Deluxe Cymbal Bag protects your cymbals while providing an ergonomic mode of transportation for these heavy instruments. Four 22" cymbals fit inside the bag's primary compartment, while the smaller exterior compartment accommodates hi-hats and cymbals up to 15". The bag includes felt separators to prevent cymbals from damaging each other. Adjustable backpack straps enable hands-free transportation and tuck inside the rear accessories pocket when not in use, while the double handle with velcro closure offers a comfortable carrying alternative.
