

Percussion Z Rod

PRL1030 / 14465

Features and Benefits

Our PRZ1030 Percussion Z Rod is a sturdy stem that's properly sized and textured for securing percussion instruments to mounting brackets or percussion racks. The rod's Z shape enables precise placement of percussion instruments at various distances from the player or other gear. Five sections of knurled surface prevent slipping to increase the stability of mounted equipment. Steel construction delivers strength for instrument support while chrome plating prevents corrosion.

Specifications

Diameter: 9.5 mm

Construction: Chrome-plated steel

Length: 13"

Width: 3.5"
