

DB500

Passive DI Box

ON-STAGE AUDIO

FEATURES AND BENEFITS

The DB500 is a rugged built, single channel, passive direct box. It will transform any high-impedence 1/4" source into a low-impedance (XLR) signal ready to be sent long distances to a mixing board or recording console. Its passive design features a high-quality transformer, ground lift switch, and does not require batteries or phantom power. Perfect for bass, acoustic guitars, keyboards and DJ equipment.
