

COLLAPSIBLE A-FRAME GUITAR STAND GS7364 | 13493

EVA Rubber on all contact surfaces protects instruments finish.

Locking pin system makes for easy click-and-go width adjustment.

Rubber feet keep stand firmly in place.

Durable A-frame guitar stand collapses for ease of storage and portability.

FEATURES AND BENEFITS

The On-Stage GS7364 -- durable, highly portable, sleek and super-stable -- takes road-worthy, studio-ready adaptability to a whole new level. Collapsible and flat-folding for ease of storage and transportation, the all-aluminum, black powder coated A-Frame's three position locking pin and stepped yoke accommodate both electric and acoustic guitars. Additionally, EVA foam padding protects instrument finish, while 10° tilt-back angle and splayed, tripod legs (complete with non-slip rubber feet) ensure secure placement. Perfect for production companies' ever-evolving stage plans and touring professionals alike, the overly-versatile GS7364 does only one thing you can't find in almost any other stand: just about everything.

The stepped-yoke design on the GS7364 accommodates both electric and acoustic guitars.
