

GS7561

5-Space Foldable Multi Guitar Rack

GUITAR STANDS & ACCESSORIES

FEATURES AND BENEFITS

The new GS7561 is a cost effective way to display a combination of electric and acoustic instruments on stage, in the studio, or at home. Guitars line up in single-file leaning against a padded yoke and cradled by a padded base. Access is unobstructed and instantaneous. The wide rectangular base is stable no matter how many slots are full. And, like you'd expect from On-Stage Stands, portability is built into the design. The backrest folds downwards, making a lightweight, low profile bundle for easy transport.

Folds flat for storage and travel

Unique carry all design allows you to fold the bottom base of the stand up for storage and transport. No loose parts and set-up and tear down are quick and easy!

Extremely Versatile!

Removable bottom braces allows for custom set-ups. One stand will hold a combination of most name brand electrics and/or acoustic guitars.
