

MM-01

Ball Joint Mic Adapter

MICROPHONE STANDS & ACCESSORIES

FEATURES AND BENEFITS

Precise mic placement has never been easier! Use the MM-01 with any standard mic clip, shock mount, stereo bar, or self-mounting microphone. The MM-01's ball joint provides 360° rotation and 180° tilt, making fine-tuned mic positioning a breeze. The ball joint itself features a textured finish, so the locking mechanism holds fast even with heavy microphones. Great for percussion, guitar amps, acoustic guitars, stereo recording schemes, and personal mixers.

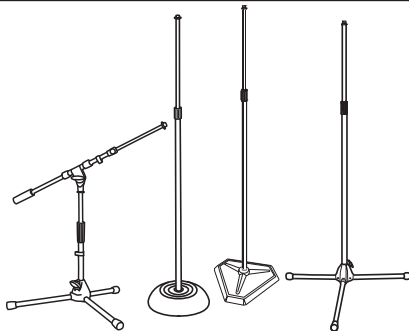

5/8"-27 male threading mounts any standard mic clip, shock mount, stereo bar, or self-mounting microphone.

Machined steel ball joint provides 360° of rotation and 180° of tilt.

Attaches to any mic stand with standard 5/8"-27 threading.

Attach any of the On-Stage Stands® Booms to any of our Mic Stands!
